Charge read & explained
Plea: Not Guilty.

Prosecution called his witnesses.

witness ① Sworn by Clerk. (Take oaths)

My name is Noel Angovi
I am from Malekura.

CPO Tanna Police station.

Yes I know the case and I was the
investigator of the case.

Well Complainant said that about the year
1994 - 1995 there are some cows trespassing
and damage the crops to a different area.

During my investigation, I found out that that was true all the bullocks were trespassing and damage to the property for Miss Rosina.

All the evidences for the investigation were in the Docket.

When all the bullocks were trespassing the accused did not do anything concern.

This was a continuous action which brought into a case and brought before this Court.

This trespassing or damaging happen since 2-3 years.

About the damage for investigation, P.C. Sanders road had service for.

writes (v)

My name is Rosina

I am a house wife.

That was true All my statement were also recorded in the file.

So I only want the (v) accused to compensate the damage caused by the bullocks.

Affacts. Yes I understand the statements read out I was sorry to accept a statement, which belongs to my father. Rosina report me. But all this property belongs to my father.

So I can't say anything on behalf of my father. He is dead. And why Rosina did not report to police while my father is

kill alive. And when he is dead and Rosina brought the matter against me.

Rosina and my father had made a promise that my father to save a Bulluk & 25kg rice to Rosina. And they were both agree with.

And I don't know why Rosina report the case against me instead of my father.

we can't go to the grave and see the whole and talk to father.

Rosina still the Bulluk. I had someone by the name of Ramawan told me that they know, Kom and take take the Bulluk, Rosina still it. She made a house and sleep during the night and when the Bulluk came they hold it and hide it.

So I and my wife when to take the cow, Rosina wasn't here few minutes left, she appeared and we take the Bulluk home.

When she (Rosina) told the Bulluk, she did not come and talk to us that, I've hide the Bulluk and come and pick it up. So that means she is trying to kill the Bulluk.

So during the day where my father had died then I've got full over the responsibilities of my father.

And when I took over the responsibilities, Rosina proceed with the case and report me to the Police. But while my father is still alive, Rosina did not do anything.
